

Manufacturer's Declaration of Compliance with Regulation (EU) 2023/2854 (Data Act)

Sontex SA

declares under our sole responsibility that the

Product category: Thermal Energy Meters and its configuration software

Type designation(s): *Supercal 5 I; Supercal 5 S; Supercal 5 U; Superprog Windows and Tool Supercom*

Covered by this declaration is in conformity with Regulation (EU) 2023/2854 (the Data Act), provided that the product is used in accordance with our instructions.

By purchasing *Supercal 5 I; Supercal 5 S; Supercal 5 U; Superprog Windows and Tool Supercom*, you acknowledge and agree that Sontex will collect, access, and process data generated by the use of *Supercal 5 I; Supercal 5 S* and *Supercal 5 U* in accordance with the Data Act and the contractual arrangements agreed between the parties. Data will be processed in compliance with applicable legal obligations.

a. Data generated by *Supercal 5 I; Supercal 5 S* and *Supercal 5 U*

The Energy meter continuously measures, calculates, and updates operational parameters relevant to heating, cooling or heating/cooling installation in control.

- During operation the Energy Meter will store various information to internal memory
 - Monthly totalizer snapshots
 - At least the last 100 errors and related measurements detected by the meter
 - Statistical data related to supply and return temperatures
- All other data available from the Energy meter reflects the current live operational state.

b. Data access

All operational data, configuration parameters, and logged data are available in real time through different communication options using standard M-bus protocols; *Superprog Windows or Tool Supercom*.

- Access to M-bus data is open to the product owner or any third party they authorize without requiring Sontex intervention.

c. Third-party access and data portability

Access to data generated by the *Supercal 5 I; Supercal 5 S* and *Supercal 5 U* Energy meters is provided without discriminatory restrictions and without additional licensing fees beyond the purchase of the product.

Note to the Customer

This statement covers the compliance of the *Supercal 5 I; Supercal 5 S* and *Supercal 5 U* Energy meters with the EU Data Act regarding live operational and logged data.
